

PERI Refurbishment, Repair and Panel Replacement Services

Available for MAXIMO, TRIO, DOMINO SKYDECK and MULTIPROP

These services are available for panels of any width, with heights ranging from 0.3 to 3.3m and thicknesses up to 18cm

What do we offer?

Cleaning of apertures

Tie points and location holes are cleared

Formlinings repairs

All tie holes cleaned and plywood surface damage repaired. Bearing surfaces cleaned and straightened.

Panel refacing

Where required, panels are refaced with the appropriate thickness for the PERI formwork product, manufactured with high quality, birch core plywood, faced on both sides with 220g phenolic resin impregnated film, for durability and multiple re-use.

Edge protection

All plywood panels are edge coated using a proprietary, high performance exterior Acrylate-styrene copolymer, designed to give extra protection and reduce the ingress of moisture

Re-painting of external profiles

All panels can be repainted (in the customer's own corporate colours if required) and prepared for dispatch back to site.

Frame and seam welding

Contact us for individual quotes.

Why book a repair or cleaning service with us?

- Thorough cleaning and repair of your PERI equipment
 - Extends the life of the product
 - Reduces future costs
- PERI will make an alternate offer, if repairs are deemed uneconomical
- Environmentally friendly disposal of waste and old materials
- Prompt and hassle-free returns of serviced products to your site
- A full safety and quality check will be completed on all products.

MULTIPROP Services

- Cleaning
- New collars
- Spring and clip replacement
- Dent removal
- New inners or outers (replaced at extra cost)
- Any job beyond economical repair will be advised and returned back to you

We can also offer replacement plywood panels to ALL the PERI formwork range, as well as some other manufacturers systems.

Please contact us for further information and allow us to give you a formal quotation on sales@peri.ltd.uk or call 01788 861 600
